

***Drugs, Herbals, Nutraceuticals:  
New Issues for Dentistry***

Thursday, March 15, 2007

***Overview:***

This course will present a mix of the most recent reports describing conventional drugs, herbal supplements and nutraceuticals having an impact on dental practice.

***By the completion of the course, each participant should be able to:***

- ◆ Understand the Treatment Considerations for the Aspirin and Plavix Patient
- ◆ Learn the New Dental Drugs and Products in Terms of What Works and What Doesn't
- ◆ Learn the Latest on Osteonecrosis of the Jaw/Bisphosphonates
- ◆ List the Analgesics to Use to Replace Vioxx
- ◆ Discover the Effects of Common Herbal Supplements and Nutraceuticals Your Patients May be Taking
- ◆ Learn the Herbal Dental Products Available as "Natural" Remedies
- ◆ Learn Which Nutraceutical Remedies May be Beneficial in Dental Health

***Richard L. Wynn, PhD***

*Professor of Pharmacology, University of Maryland, Dental School*

**Course: 659  
Credit: 6 hours**

***Periodontal Therapy:  
What You Need to Know  
Now in General Practice***

Thursday, April 12, 2007

***Overview:***

There have been many advances in periodontics in the past five years. Changes in the terminology of the periodontal diseases, development of more effective local therapies, advances in regenerative therapy, and the integration of periodontal plastic surgery into the comprehensive aesthetic practice are but a few of the highlights of a rapidly changing field. This course is designed for maximum practicality for those dentists and hygienists in general practice.

***At the completion of this course, the participant should be able to:***

- ◆ Describe the New Periodontal Disease Nomenclature
- ◆ Appreciate the Relationship Between Systemic Conditions and Periodontal Health and Disease
- ◆ Describe and Apply the Recent Advances in Nonsurgical Periodontal Therapy Including the Use of Systemic and Localized antibiotic- ics and Anti-Infective Therapy
- ◆ Evaluate the Post-Treatment Patient and Explore Options for Patients Where Conventional Therapy Failed

***Francis Serio, DMD, MS, FICD***

*Diplomate American Board of Periodontology, Professor and Chairman, Department of Periodontics, University of Mississippi, School of Dentistry*

**Course: 660  
Credit: 6 hours**

***Exceptional Dentistry  
for Children - Secrets Exposed!***

Thursday, September 27, 2007

***Overview:***

The thought of a young child sitting in your chair usually evokes one of two scenarios - either you take a deep breath and just get the work done or more commonly head for the referral cards. This all day program - geared for Dentists, Hygienists, and Assistants will enable you to get the upper hand on treating children - nearly all of them - in a relatively low stress environment. Whether you are newly out of school or have been practicing for years, you'll be re-excited about treating young children!

***Topics to be covered:***

- ◆Diet and Nutrition - New "Miracle" Foods and Snacks to Reduce Plaque Formation and Decay
- ◆Behavior Management for Children and Their Parents
- ◆Pediatric Forensics and Child Abuse
- ◆Pediatric Office Management - Hiring and Firing, Office Policies
- ◆The Dental Team's Role in Comprehensive Children's Care - Open Forum Discussion to Answer Specific Management Questions
- ◆Tricks of the Trade - Incredible Clinical Considerations for Doctors and Their Staff

***David A. Bresler, DDS***

*Associate Professor, Department of Pediatric Dentistry, Temple University, School of Dentistry, Diplomate of the American Board of Pediatric Dentistry, Private Practice, Limited to Pediatric Dentistry, Philadelphia, PA*

**Course: 661  
Credit: 6 hours**

*The Art and Science  
of Restorative Dentistry*

Thursday, October 25, 2007

***Overview:***

Practitioners will be given a banquet of new ideas, old ideas, new techniques, old but tried and true techniques, which will enable them to do dentistry better with more enjoyment and predictable results. A practical take home sharing of experiences by an experienced practitioner will help you put enjoyment and profitable ideas into the everyday practice of dentistry.

***Topics to be covered:***

- ◆ 90 Second Impression Technique
- ◆ Immediate Whitening Technique
- ◆ Is Gold Still the Standard?
- ◆ Dental Magic and Humor
- ◆ Snoreguard
- ◆ Porcelain Veneers and Crowns
- ◆ Cements and Cementations
- ◆ Flowable Composites
- ◆ Practice Builders
- ◆ Indispensable Tools, Instruments, and Products
- ◆ Temporization
- ◆ Bonding
- ◆ Restorative Principals
- ◆ New Cad-Cam Lab Technology
