

Wish there was an easy way to:

Automatically update your CV?

Maintain multiple versions of your NIH biosketch?

Generate a CV in the HSC-standard format?

Introducing...

Research Gateway

digital vita 

Digital Vita is a free online resource available to all members of the University of Pittsburgh scientific research community. With Digital Vita, you can:

 Quickly create custom-tailored versions of your CV and NIH biosketches for grant proposals, your annual review, and online profile.

 Automatically import your latest publications and grants from MEDLINE. Digital Vita will also retrieve final citation information for your accepted papers and transmit it to the profiles of your co-authors.

 Coming soon! Build networks of colleagues and collaborators. Create links, assemble research teams, exchange ideas and information, and manage your biographical document flow.

Create your online profile today. To get started, visit
