NEW DIRECTIONS IN CARIOLOGY RESEARCH

GUEST EDITORS: ALEXANDRE R. VIEIRA, MARILIA BUZALAF, AND FIGEN SEYEMEN

International Journal of Dentistry is a new peer-reviewed, open access journal that publishes original research articles, review articles, case reports, and clinical studies in all areas of dentistry. Special Issues are an important component of this journal. They deal with more focused topics with high current interest falling within the scope of the journal. They should be organized by recognized experts in the area and attract articles of the highest quality. This month the International Journal of Dentistry published its first Special Issue, entitled "New Directions of Cariology Research." Dr. Vieira is the leading Guest Editor of this special issue that brings 13 articles dealing with several aspects of the etiology and diagnosis of caries. The issue can be found at <http://www.hindawi.com/journals/ijd//2010/si/1.html>.
