J Dent Res. 2010 May 28. [Epub ahead of print]

## Lab News

### Subject 2,000

This month the Dental Registry and DNA Repository (DRDR) recruited its 2,000th subject. After 5 years, the project continues to thrive and it is now fully supported by the Clinical and Translational Science Institute (CTSI). The success has a lot to do with the support from the SDM faculty, staff and students. The DRDR also provides research experience for undergraduate students and more than 60 undergraduates have been involved with the project.

Michael Ballack helped to recruit sample 2000

## DRDR Update

### Recruitment Summary

<b>Subjects Recruited</b>	2000
