## Lab News

On October 19th, the Dental Craniofacial Clinical and Translational Research Center (Dental CTRC) was officially inaugurated in a public event that included guest speakers and a reception that followed. Speakers included Drs. Thomas Braun (Dean, SDM), Steven Reis (Director, CTSI), John Reilly (Director, Participant Clinical Interaction Resources Core, CTSI), and Alexandre Vieira (Director, Dental CTRC). The event was a great success, with attendees that included faculty from all health sciences schools, dental students, staff, as well as members of the local community. The inauguration was in an effort to better inform SDM faculty, staff, and students about the resources available within the Center. Such resources include dedicated dental chairs for clinical assessments or trials, imaging capabilities included 2D and 3D imaging systems, digital panoramic radiography, and an ultrasound machine, and the Dental Registry and DNA Repository (DRDR), which provides investigators with clinical information linked to DNA samples.

## DRDR Update

### Recruitment Summary

<b>Subjects Recruited</b>	2268
<b>Subjects Declined</b>	301
<b>Compliance Rate</b>	88%

### Recruitment Location

<b>Module 1</b>	478	<b>Emergency Care</b>	63	<b>UDHS</b>	8
<b>Module 2</b>	802	<b>Oral Surgery</b>	40	<b>Orthodontics</b>	141
