

DENTAL PATIENTS NEEDED

Students in the Dental Hygiene Program at the University of Pittsburgh School of Dental Medicine are preparing to take the clinical board exam to obtain a license to practice as dental hygienists.

Thank you for supporting the Dental Hygiene Program at the University of Pittsburgh School of Dental Medicine.

Your appointment will take place in the School of Dental Medicine. Please visit the registration area located in the lobby of Salk Hall at **3501 Terrace Street** to begin your screening process.

Qualifying participants must be available to serve as patients during the board examination on May 8, 2020, from 6:45am-12pm or from 12pm-5pm (exact time to be determined).

If you are unavailable on the screening days listed in the scheduling assistant, please provide your contact information and you will be contacted as new screening days are coordinated.

This offer is a limited time only. There are a limited number of screening days.

In preparation for this exam, **free oral screenings** are being offered in effort to recruit the patients for this exam. Prospective exam patients will be screened for **free** and also will receive a **free dental exam and treatment plan** if they become a patient.

Individuals who meet the board examination criteria—a presence of moderate tartar build-up below the gums—and also can be present for the exam on May 8 will receive a **free dental cleaning**.

The 30 minute screening process includes:

- Free full mouth screening
- Free oral health kit
- Free initial exam and treatment plan if you return to the School of Dental Medicine for further care

Qualifying individuals will also receive at the time of the exam:

- Free x-rays, including duplication and distribution to your private dentist
- Free dental cleaning

Our free dental services have an estimated value of up to \$135.

Please schedule your screening appointment by visiting our online scheduling assistant.
