Dr. Alexandre Vieira

The AADR Hatton Competition (IADR Unilever Hatton Divisional Award) is designed for junior investigators (junior, senior and post-doctoral) who exhibit potential for a productive career in dental research. One of this year's winners in Los Angeles during the AADR Annual Meeting in March was Meredith Williams, a dental student from the University of Texas at Houston. Meredith will represent the USA at the international competition in Seoul, South Korea in June 2016. She is mentored by Ariadne Letra, former post-doc of Dr. Vieira. The winning presentation entitled "**Association between Colorectal Cancer Polymorphic Variants and Isolated Tooth Agenesis**" was part of a project that Dr. Letra and Dr. Vieira collaborate on, and it uses the Dental Registry and DNA Repository data and samples.

Dr. Ariadne Letra and Meredith Williams

DRDR Update

Tables show running totals of patient recruitment

Subject Recruitment Location

Recruitment Summary

Subjects Recruited	5553
Subjects Declined	1099
Compliance Rate	84%

Upcoming Events

16th Annual School of Dental Medicine Research Symposium

Wednesday, May 18, 2016
9:00 a.m. to 3:00 p.m.
O'Hara Student Center

Memorial Day

Monday, May 30, 2016
University Closed
