

Vieira Lab Newsletter

Lab News

COVID-19 may have intra-oral manifestations, including trigeminal neuralgia pain-like symptoms in the tongue. The first reports of intra-oral manifestations were from Spain and were synthesized by Dr. Vieira in the letter to the editor in Oral Diseases, [Oral manifestations in coronavirus disease 2019 \(COVID-19\)](#)

The photo shows Covid-19 associated eruptions on the palate of a child from the [Classification of the cutaneous manifestations of COVID-19: a rapid prospective nationwide consensus study in Spain with 375 cases](#). Click [here](#) for the photographic atlas that is included in the article.
