## Lab News

The All of Us Research Project is a nationwide research program and the enrollment goal is one-million Americans. Our SDM location has already recruited 89 participants with the effort of our Dental Registry and DNA Repository (DRDR) and the All of Us Dental School team. The DRDR and All of Us collaboration is influencing other recruitment sites across the country. We are inviting more than 6,000 DRDR participants to become one in a million with All of Us Pennsylvania here at the SDM.

### Nationwide Collection Data (as of 2-4-19)

Total Registered Participants	175,989
Enrolled (Consented) Participants	145,488
Total Core Participants	103,003

Since the term "core" refers to the number of participants who have fully completed all consent (including sharing of electronic health record), health surveys, physical measurements, and provided biosamples, All of Us is:

≈ Nationally 10% of the way there to the enrollment goal of one-million Americans

Total at UPMC Facilities (as of 1/24/19)	12,212
