

Vieira Lab Newsletter

Lab News

Dr. Vieira created the most popular program for the Clinical and Translational Science Institute's mobile lab, which was terminated this month after 6 years. 2,374 students from grade 6 to 12 attended the class to learn about identification of craniofacial differences for forensic purposes. Try it yourself; match the faces to the skulls.

Upcoming Events

Vieira Lab/DRDR Meeting

Tuesday, July 31
10:30 a.m.
