Lab News

I am very proud to be a part of Vieira lab and I am thankful to Dr. Vieira for giving me the opportunity to present at IADR Vancouver. I got a chance to interact with the brightest minds across the globe and I am truly honored to represent Pitt through my research talk at such a platform.
--Parul Ahuja

Presenting my research at the IADR meeting in Vancouver was a special opportunity for me at this stage of my dental career. Not only was I able to meet and network with other researchers, dentists and dental students, but I was also able to represent the very well regarded Vieira Lab. This experience is something I will never forget and would have never been able to achieve without the guidance of the Vieira Lab.
---Ariana Kelly

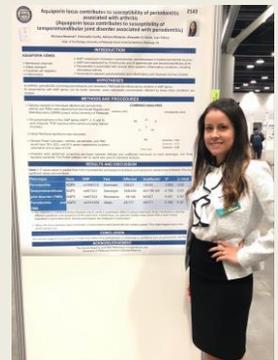

Presenting at IADR meeting was again a very rich experience. Not only did I receive valuable feedback on my research, I also learned about other presenters work. I am honored to have had this opportunity and I am looking forward to future meetings.
--Mariana Bezamat

It was a precious opportunity to meet and learn with dental researchers around the world at IADR in Vancouver. Thank you so much Dr. Vieira for conducting such an interesting research project with me. I will always remember the days at Vieira Lab.
--Yilan Miao

It was an exciting experience to be around so many excellent researchers who are well known in their fields. I was glad to be able to hear them all speak, and to get to know so many awesome dental and PhD students as well.
--Ben Harrison
