

# Vieira Lab Newsletter

## Lab News

We would like to recognize great accomplishments by two former postdoctoral associates from the Vieira Lab. We are very proud to have a part in their success!

Dr. Takehiko Shimizu spent two years in the Vieira Lab where he focused on the genetics of caries. He is now the vice-dean of his dental school, Nihon University School of Dentistry at Matsudo.

Dr. Renato Silva was at the University of Pittsburgh School of Dental Medicine for over 5 years as a post-doctoral associate and a principle investigator. He is now a faculty member at the University of Texas School of Dentistry at Houston and assumed a new role as chairman of the Department of Endodontics on July 1, 2016.

Take is wearing the black shirt in the front row and Renato is wearing the blue shirt. December 2011
